

# How to put the filter in front of the projector?

## method 1:

the word "L-CP" must be correct,  
can't be upside or inclined  
when you face to the filter  
make the correct words towards screen  
not towards projectors

the word "R-CP" must be correct,  
can't be upside or inclined  
when you face to the filter  
make the correct words towards screen  
not towards projectors

method 2:

wear a pair of circular polarized 3D glasses to look the filter if both filter color is purple, then make the filter purple side towards to screen, not towards to projectors.
